**We have more than 20 years experience in the production of automotive interiors**

At Autostop Leather Ltd., we are always focused on customer satisfaction and we are proud to continue producing leather interiors in premium quality, meeting even the most demanding requirements.

Our Design & Development team of specialists focus only on continuously developing unique, elegant and exclusive interiors, meeting the exact specifications of manufacturers whilst keeping all related development and set-up costs to the minimum.

Established in 1991, our reputation grew with our exclusive agreement with Connolly Leather, one of the most renowned firms in the leather automotive industry. Our milestones as official suppliers in the automotive industry include:

- *Toyota Motor Europe* by developing and producing leather covers for almost the entire model range of after-market accessories, with the installation taking place at various PDI hubs throughout Europe.
- *Ford Europe* by achieving Q1 status, supplying leather interior covers to both in-line production factories and post-vehicle production facilities.
- *Chrysler Europe* with leather for in-line production.

Today, we continue to be innovative in our designs, with over 2,000 patterns, supplying high-end automotive interiors, with our area of expertise rapidly expanding to the transportation, aviation and marine industries.

The next few pages illustrate some of our finest designs, techniques and services that qualify Autostop Leather with the highest certifications in the automotive industry. For more information on how we can provide you premium and tailor-made leather interiors, you can reach us at **0207 221 9179** or by email at **info@autostopleather.co.uk**

Thank you for your interest and I look forward to hearing from you.

Yours sincerely,

**Ivan Sakellariou**  
Managing Director  
**Autostop Leather Ltd.**

# OUR PASSION FOR DETAIL

## From Inception to Production
